

Lesson 7 Longterm Discipleship Plan

Any instrument, tool or device comes with an instruction manual that the creator of that instrument, tool or device wrote so anyone can learn how to use it well. If people will not use a thing in the way it was designed to be used as written in the manual the thing will not work well and in the end it may even get permanently damaged. Our life's instruction manual is the Bible. We need to know the Bible so we can live well. If we stray from it our lives will not work properly.

Trainers need to study the Bible systematically. They can use this story set to study the Bible Chronologically.

After learning each story they can ask these questions :

- 1.What did you like?
- 2.What did you not like or not understand?
- 3.What did you learn about man?
- 4.What did you learn about God?
- 5.What do you need to apply in your life?

Old Testament:
